## **Cambridgeshire Constabulary Operational and Corporate Risk and Issue Report**

### **1. Purpose**

- 1.1 To update members on the current risks and issues being carried by the Constabulary (other than those jointly owned with the OPCC which are reported separately).

### **2. Background**

- 2.1 Committee members will doubtless recall that they wish to review the Constabulary outstanding risks and issues twice yearly. This report is provided so that members are aware of the current status and may raise questions and views.

### **3. Report content**

- 3.1 The report consists of three tabs, one for outstanding risks, one for outstanding issues and a third showing the scoring matrix, for reference if required. The entries on the first two tabs are in numerical order (and hence chronologically by date originally raised). A short commentary for each is provided in column G in purple print.

### **4. Recommendations**

- 4.1. The Committee is asked to note the contents of the report.
